## DOMESTIC waste collection

*in selective containers*

Selective waste collection from the containers located on the streets is the main waste collection system in Palafrugell.

The users should deposit waste in the containers located on the public road, duly separated by different categories.

## CONDITIONS FOR WASTE COLLECTION

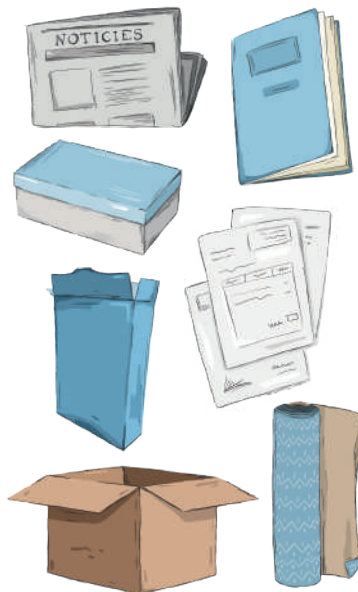

- It is **MANDATORY** to separate the waste according to its typology.
- Waste must be deposited **INSIDE** the containers, with the bags well tied up.
- The waste collection time starts at **20h.**
- It is **PROHIBITED** to leave waste outside of the containers and to dispose of domestic waste in the public bins.

### RECYCLABLE PACKAGING

### PAPER AND CARDBOARD

### GLASS

### ORGANIC WASTE

### RUBBISH

Coffee capsules, mirrors or flat glass are collected at the **WASTE RECYCLING CENTRE** | Metal lids are deposited in the **RECYCLABLE PACKAGING** container  
The rest of ceramic dishes and tiles should be deposited in the **RUBBISH** container
